

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

1. (Original) A gaming terminal for playing a wagering game, comprising:  
a basic game having a plurality of symbols that indicate a randomly selected outcome of said basic game, said randomly selected outcome being selected in response to a wager input by a player; and  
a progressive game feature having a progressive award that is triggered by a predetermined event, said progressive award increasing based on said wager input being received at said gaming terminal and other wager inputs being received from other gaming terminals, said progressive award has an actual value determined by follow-up game play by said player at said gaming terminal.
2. (Original) The gaming terminal of claim 1, wherein said follow-up game play is one or more free spins of the basic game.
3. (Canceled)
4. (Original) The gaming terminal of claim 2, wherein the number of said free spins of the basic game yields a monetary or non-monetary value associated with randomly selected outcomes of said free spins of said basic game.
- 5-6. (Canceled)
7. (Original) The gaming terminal of claim 1, wherein said progressive award is associated with a multiplier value, said multiplier value increases the value of a monetary award achieved in said follow-up game play.
8. (Original) The gaming terminal of claim 1, wherein said predetermined event is a selection of a progressive-award outcome from a plurality of progressive game outcomes that are randomly selectable in response to receiving said wager input.

9. (Original) The gaming terminal of claim 1, wherein said progressive award is measured in integers and increases by an incremental value for each wager input, said incremental value being a fraction of the integers associated with said progressive award.
- 10 (Original) The gaming terminal of claim 1, wherein said follow-up game play is a progressive game that is played by said player in response to said predetermined event being triggered.
11. (Original) The gaming terminal of claim 10, wherein said progressive game includes a player-selectable grid of options.
12. (Original) The gaming terminal of claim 11, wherein said player-selectable grid of options has options associated with value and game-terminating options.
13. (Original) The gaming terminal of claim 12, wherein said options associated with value include multiplier values for increasing the value of a monetary award.
14. (Original) The gaming terminal of claim 12, wherein said number of game-terminating options changes as said progressive award changes.
15. (Canceled)
16. (Original) The gaming terminal of claim 1, wherein said progressive game feature has multiple progressive awards that are determined by follow-up game play by said player at said gaming terminal.
17. (Original) The gaming terminal of claim 1, wherein said actual value may be zero based on said follow-up game play.
- 18-42. (Canceled)
43. (Original) A method of playing a progressive wagering game having a progressive

award, comprising:

conducting a basic game at a plurality of gaming terminals in response to receiving  
wager inputs;  
changing said progressive award in response to said wager inputs received at said  
plurality of gaming terminals; and  
in response to a randomly selected outcome being a progressive-award outcome,  
awarding said progressive award to a player, said progressive award having an  
actual value determined by follow-up game play by said player at said gaming  
terminal.

44. (Original) The method of claim 43, further comprising the step of allowing said  
player to engage in said follow-up game play.

45. (Canceled)

46. (Original) The method of claim 43, further comprising the step of awarding to said  
player said actual value in response to outcomes achieved in said follow-up game play.

47. (Canceled)

48. (Original) The method of claim 43, wherein said randomly selected outcome is an  
outcome that is not selected during said basic game.

49. (Original) The method of claim 48, wherein said randomly selected outcome is  
determined by a progressive-game controller that is external to said plurality of gaming  
terminals.

50. (Original) The method of claim 48, wherein said randomly selected outcome is  
determined after a preselected wager amount is received at one of said plurality of gaming  
terminals.

51. (Original) The method of claim 50, wherein said preselected wager amount is the  
maximum wager amount at said plurality of gaming terminals.

52. (Original) The method of claim 50, further including, in response to said wager input being more than said preselected wager amount and said progressive award being awarded, using a remainder of said wager input to determine if a consolation prize is won.

53. (Original) The method of claim 50, wherein said progressive award has multiple levels and further including, in response to said wager input being more than said preselected wager amount and said progressive award being awarded, using a remainder of said wager input to determine a level of said progressive award that is awarded.
